

Sunrise Capital V acquires Tokai Medical Products Co., Ltd.

Tokyo, Thursday, 16 October 2026: Sunrise Capital KK is pleased to announce Sunrise Capital V (“Sunrise V”) has acquired a majority stake in Tokai Medical Products Co., Ltd. (“Tokai Medical Products” or the “Company”), a research and development-oriented medical devices company engaged in creating value through innovative medical technologies.

Sunrise V, is a fund that invests in established, mid-cap companies with strong growth potential in Japan. Since its establishment in 1981, Tokai Medical Products has operated under its founding philosophy of “saving as many lives as possible.”

The Company has pioneered medical device technology and became the first in Japan to successfully develop a domestically manufactured IABP balloon catheter. The Company has since continued to create value in the field of advanced medical devices by consistently incorporating the voices of patients and healthcare professionals into its research and development activities and prioritizing quality and reliability above all else which has earned the trust of medical institutions throughout Japan.

Sunrise Capital greatly values Tokai Medical Products’ founding philosophy, which it has upheld for more than 40 years, as well as its commitment to manufacturing with quality and reliability as its highest priorities.

Following the transaction, there will be no material changes to Tokai Medical Products’ company and brand name, or product and service offerings. Mr. Nobumasa Tsutsui, the founder of the Company, will assume the role of Honorary Chairman. Going forward, Tokai Medical Products will continue to uphold its founding philosophy and maintain its unwavering commitment to quality while developing safe and reliable medical devices that respond to the needs of healthcare professionals and patients. Sunrise V will support the Company’s continued growth together with its management and employees.

###

About Tokai Medical Products

Tokai Medical Products is a research and development-oriented medical devices company built on its founding philosophy of “saving as many lives as possible.” The Company develops, manufactures and sells medical devices, including IABP balloon catheters and other products used in advanced medical care.
